City Provides Superior Solid Waste Services

Citizens of Bristol have recently received a mailing from Waste Management promoting its residential household waste pickup in the city.

The City of Bristol Tennessee provides universal solid waste pickup and disposal services for all residences within the city limits. In addition to the weekly household waste deposited in rollout containers curbside, solid waste services include weekly curbside collection of landscape wastes, white goods and appliances, electronic goods, furniture, and other materials. In addition, the city provides seasonal leaf collection and drop-off recycle centers. For these services a low monthly fee of \$11.50 for the first container is charged.

In the event a city household elects to become a customer of any other waste disposal company, the city will continue to collect its monthly solid waste fee.

“The cost for the exceptional solid waste services provided by the city is a great value” said Bill Sorah, Deputy City Manager. “The services are dependable and wide-ranging. Our goal is to provide superior customer service in a safe, efficient, cost effective and environmentally sound manner,” he stated.

For more information concerning solid waste disposal contact the Department of Public Works at 423-989-5500.
