## **City Modifying Traffic Pattern for Volunteer Parkway**

The City of Bristol Tennessee will soon begin a permanent change to the traffic pattern for motorists traveling southbound on Volunteer Parkway from State Street to English Street. The far right through lane will be eliminated and turned into a shoulder with right-turn lanes at the street intersections. The shoulder will be signed as a no-parking zone. Once completed, the project will improve the safety and traffic flow through the area. The City encourages motorists to slow down and be alert for workers making revisions to the pavement markings and traffic signage. Motorists should also use caution through the area after completion of the project until drivers become familiar with the new traffic pattern.

Questions regarding this work should be directed to Transportation Engineer David Metzger at (423) 989-5522.
