## **City to Hold Official Earth Day / Arbor Day Celebration**

The City of Bristol Tennessee will officially celebrate Earth Day / Arbor Day on Thursday, April 22, 2010. The observance will include a ceremony at the city's brand new school, Fairmount Elementary.

The official ceremony begins at 10:00 A.M. when the Tennessee Forestry Department will be on hand to present a flag to the school. Jeremy Stout, Naturalist from the Steele Creek Park Nature Center, will address the students on the important role trees play in our daily lives. Bristol Tennessee Essential Services will highlight the celebrations by donating and planting an official memorial tree to commemorate the event.
