Woodpeckers of Steele Creek Park

What: We will have a brief presentation discussing the different species of woodpeckers that occur in the park. We'll also learn some interesting facts about their life histories. Then we will take a mild hike looking and listening for them. It's possible to find six or seven species in the park. How many can you name? Can you tell them apart? We will also discuss other interesting nature observations as we go.

This activity is suitable for all ages but will require walking up and down steep hills. Please dress warmly and wear sturdy shoes. We can provide binoculars (limited) for the walk if you don't have any.

When, Saturday, January 29th, 12:00 pm

Where: Steele Creek Park Nature Center and Lodge.
80 Lakeshore Drive, Bristol, TN 37620
Meet at the Conference Room of the Lodge.

Who: This activity will be lead by Larry McDaniel, Asst. Park Naturalist with Parks and Recreation Department.

Contact: Steele Creek Park Nature Center @ 423-989-5616 or lmcdaniel@bristoltn.org for more information.
