

# Play the Listening Game

Take out several miscellaneous items. Have children look at all the items, & then take the items away. Next, ask children to close their eyes as you pick up an item & make a sound with it.

With eyes closed ask the children which item made the sound. Examples, a glass (gently tap), sandpaper, pots & spoons, blocks rubbed together, cymbals, a comb (run your fingers along it), shakers. Have Fun Listening!

Educate & Delight Little Ones!
